Introduction

Some people call them Angels, others call them guardian spirits, and still others use the name daimon, djinn, or demon (for a fallen Angel). Some Angels appear with wings; others have the form of a lion or other bird or beast. According to many sources, there are nine or ten orders of Angels. The most common are these: Seraphim, Cherubim, Thrones, Dominions, Virtues, Powers, Principalities, ArchAngels, and Angels. Some lists include Hosts. Angels are sometimes called Watchers and Holy Ones.

You may recognize a church hymn that begins:

*"Ye Watchers and ye Holy Ones,
Bright Seraphs, Cherubim and Thrones,
Sing their praises!
Alleluia!"*

Or these lines from Shakespeare's Hamlet:

*"Angels and ministers of grace defend us!" (Act I, scene 4)
"And flights of Angels sing thee to thy rest!" (Act V, scene 2)*

You don't have to practice any particular religion, or any religion at all, to establish a relationship with your guardian spirits. Calling upon Angels is as simple as this:

1. First you recognize that Angels exist.
2. Then you identify an Angelic spirit or energy for which you feel an affinity.
3. Then you praise that Angel, as you would praise the Lord, the Virgin, or any object of your prayers.
4. Only then do you ask for help.
5. Give thanks for whatever help comes.
6. Finally, watch for signs that your call has been answered.

While the Bible only names three Angels (Gabriel, Michael and Raphael), plenty of Angels are mentioned (the word Angel or its derivatives is used about 300 times in the Bible). Other sources list the names of hundreds of Angels, along with their natures and their responsibilities. Many holy books tell us that Angels are appointed to watch over us, and our literature and entertainment are filled with examples of Angelic presence.

This interpretation focuses on the Angels that are most prominent in your life. You will learn who they are,

what they govern, what they can do for you, and how they work together. You will also learn ways to become more aware of them - ways to tune in to their protection and their messages. We each have at least one Angel or daimon who is always with us, who never deserts us, and who offers constant creative inspiration, if we only will listen. Today you can learn more about how to listen to your unique set of Angelic guides.

As you read this interpretation, you will again and again find indications of specific ways to call upon Angels quickly and safely through prayer and meditation. I have called these activities meditations, but I personally also see these as prayers and I have included affirmations - short positive statements of personal intention - for your use. As you practice working with your Angels, you will become adept at contacting them in an instant when you most need their support and help. Since they are always around you, calling Angels is never a difficult accomplishment. However, you may not have any experience at calling Angels! Now, as you read and gain some understanding through this report, you can tune in directly to specific Angels for specific aid.

The hallmarks of true Angelic presence are these:

1. The messages are always loving, positive and clear.
2. Angelic messages and support leave you feeling confident, and certain.
3. Angels are not summoned, they are sent. Yet through visualization and meditation, you can become aware of their eternal dwelling in and around you.

In keeping with the qualities of Angels, I encourage you to listen to your Angels. Call upon them for guidance, but do not intentionally summon them. Instead, allow them to enter your presence by meditating on an Angelic image, wrapping yourself in the feeling of well-being and safety that you have experienced in the past, and patiently allowing yourself to fill with Angelic peace.

Angels of the Cardinal Directions

The Angels of the directions may show up in your interpretation later in this report. If they do, by reading this section you will be able to recognize their power. If not, you can refer to this report and consider these four possibilities in your life when you travel in their direction, when you are planning a garden, or when you walk outdoors.

East - Michael

The American Indians associate the eagle with the East Wind. The eagle has remarkable vision and can see things in perspective, as well as identify tiny objects on the ground far below. The East is related to the human kingdom, and the eastern wind brings spiritual considerations into your mind. It is in your nature to determine what you do with any gift, any task, or any burden you have been given. The Angel of the East can help you seek the higher spiritual meanings of everything you experience.

Through meditation, you can cultivate choices in any situation. In meditation, allow your mind to seek three possibilities. Some of the choices may seem weak or unacceptable to you, but they are still choices. Initially you may have simply said no to such an option. Some of the choices may seem strong for one reason or another. Michael can help you determine which choice is the best for you to follow. Occasionally you will find that your meditation leads you back to the choice you initially refused. What seemed unacceptable at first sometimes turns out to be the best path after all.

If you feel drawn to the Angel Michael, you may want to incorporate an early morning ritual into your daily life. Stand with your face to the sun to gather in energy for your day's activities. This is effective even before the sun rises.

North - Uriel

The buffalo is the animal the American Indians associated with the North Wind. Buffalo medicine was among the most power resources the Indians had, just as the buffalo was their primary source of food, warmth, and everything they needed. The North, then, is associated with material sustenance. The power of the North lies in receiving that which we need. To cultivate the capacity to receive, we need to cultivate the mind.

Through meditation, you can cultivate your mind by developing flexible mental boundaries. The mind can

take you wherever you wish to go. Through meditation, you can learn to identify the meaning behind simple facts, and the application of the principles of love to each fact you discover. In addition, the North is associated with the quiet, even dormant quality of mind. You may also develop some skill in allowing your mind to rest quietly, so that insight may arise.

If you feel drawn to the Angel Uriel, you may want to incorporate prayers or acts of thanksgiving into your daily life. By recognizing the bounty in your life, you also enhance it.

West - Gabriel

The American Indians associated the grizzly bear with the West Wind. This strongest of all bears represents Gabriel, a very powerful Angel. The power of the west lies in teaching you about self-sufficiency. The power of the grizzly is to teach patience. This animal seldom hurries for anything.

The West relates to the mineral kingdom. Through your meditation, you may learn the value of certain gems and minerals to heal mental or physical ills. Each gem has existed long before you thought of embarking on your present physical existence. According to Kenneth Meadows in Earth Medicine, the senses can be developed through the use of peridot (vision), onyx (hearing), carnelian (touch), topaz (taste), and jasper (smell).

If you feel drawn to the Angel Gabriel, you may want to end each day with a few minutes of meditation in which you consider the activities of the day, and seek guidance through dreams.

South - Raphael

The animal the American Indians associated with the South Wind was the mouse. This tiny creature has profound wisdom all its own. The mouse perceives the world on a very small scale. This animal reflects your capacity to relate to things and people by getting closer to them - close enough to touch. Often we engage emotional feelings when we are close enough to physically touch another person.

Raphael can aid you in your meditation by bringing you more in touch with your own body, and with your immediate surroundings. The South Wind emphasizes self-awareness as a foundation for giving to others. Out of self-awareness comes compassion for others. As you cultivate self-awareness, you also begin to trust the Universe to provide whatever you need to become that compassionate being you glimpse in your meditation.

If you feel drawn to the Angel Raphael, you may want to incorporate an activity into your daily life that you do just for yourself. For example, daily bathing offers a private time to allow healing energy to wash over your body.

Your Most Powerful Angelic Connections

Neptune

The planet Neptune, by its sign, house placement, and aspects, reveals the Angels that most strongly support and influence your life. You always have Angels around you, and you may have identified specific Angels from time to time throughout your life. Some of the Angels mentioned in this report have familiar names, some have unfamiliar names, and there are many Angels without names. You may find that the familiar Angels seem to have more power. This is because they have been invoked many times by many people, and therefore they have more apparent power. Your personal Angels, even if they have no names, are powerful to you, and they help you focus your individual energy more effectively.

Neptune is in Scorpio

With Neptune in Scorpio, you are part of an entire generation of people who share in the influence of the Angel Barbiel.

Prince of the order of ArchAngels, Barbiel is one of the seven electors in the underworld. Scorpio's Angel has both negative and positive facets that are more obvious than some of the other Angels. As with any energy, sometimes we have to understand the dark side in order to reach for the Light. Barbiel's role in your life is to show you both, and help you to develop discerning awareness and the capacity for intelligent choice in the midst of great difficulty.

He tells you that virtues are not everything that life has to offer and that the poisonous side of life can drag you down, but, if you call upon him for help, Barbiel lets you soar like the eagle, thus offering the perspective you need to convert dark to light and anger to compassion.

Although sources differ, the power of this Angel is often associated with the red healing energy of the root chakra, and with the topaz gem.

Meditation for Barbiel

Meditation requires focus and practice in order to become familiar and easy to do. Yet it requires nothing that you do not already have in the way of clothing, equipment, or mental faculties.

1. Wear loose clothing that will keep you warm or cool, depending on the season and conditions.
2. Before you begin your meditation, take a moment to think about a person about whom you have negative or destructive feelings.

3. Think about that person and the events or situations in which you began to have these feelings.
4. Make every effort to avoid judging yourself or your feelings. Just observe how you feel about this person. This is not fun. However, it can be very informative. It shows how much time you spend on negative thoughts, for one thing.
5. Sit cross legged on the floor or sit in a straight chair. Keep your back straight and rest your hands on your thighs so that your upper arms are vertical and the position feels relaxed. You can adjust your hand position as needed.
6. Gaze at the floor about six to eight feet in front of you, so that your eyes are open, looking slightly downward.
7. Breathe in and out slowly. Follow your breath as it goes out, and feel it as you inhale. Allow yourself to notice any sensations in your body, and any sounds in your environment. Do this for a minute or two.
8. As you relax, think about something positive or good in your life. It could be a beautiful flower, a particular symbol, or a place you enjoy. Allow time to recall this positive thing in as much detail as possible, remembering any associated sounds, smells, or tastes.
9. As you focus on this image, notice the feeling of warmth and comfort that comes over you. Notice how you are able to relax even more. Notice the colors you associate with this comfortable feeling.
10. Now think about that difficult person again for a moment. Now revert to the comfortable image. Oscillate your attention from the person to the image, the person to the image.
11. Continue in this vein for several minutes.

At first this may seem rather silly to you, or you may find it emotionally painful. However, you will very soon notice that your perception of the difficult person has changed! You have the power, with the help of your Angels, to think whatever you choose. This meditation can help you choose to think more positive thoughts.

Sometimes we feel bombarded with negative, destructive thoughts and feelings. Using this meditation does not throw up a barrier against such feelings. It does, however, provide you with a ready alternative to responding negatively.

Some of your negative thoughts will stubbornly resist change. If this is the case, simply return to the image of that thought or person again later and try again. In the mean time, develop an arsenal of comfortable, good things to use in your meditation. You will begin to notice little things like the pattern of moss on a tree or the brilliant color of a flower. All these positives can weigh in to help you change your mind to the positive.

Another benefit of this meditation is that you will be able to be kinder and more compassionate toward the person you so dislike. As you soften your own harsh attitude, you will often find that the other person softens as well.

Neptune is in the 3rd Decanate in Scorpio

Corona Australis - Attainment

Corona Australis captures the quality of attainment of the third decanate of Scorpio. You hold the promise of potential victory over base desires and the demonstration of spiritual compassion toward yourself and others. You can conquer fear by facing danger with the calm stillness of your mind. The forcefulness of your personality is supported through courageous expression of the supernatural world that surrounds you. When you walk through the valley of the Shadow, in the company of your Angels, fear has no place in your

mind and no foothold in your heart.

Affirmation

With Angels beside me, I acknowledge the power of the supernatural realm to guide my steps. Though I walk through the Valley of the Shadow of Death, I will fear no evil.

Neptune is in the 11th House

With Neptune in the Eleventh House, your Angelic focus is on noble goals to help society. You sincerely want to help other people. However, you tend to think of people as the masses and not as individuals. So although you invest a lot of time in the search for a soul mate, you are frequently distracted by your interest in lifting up all people. In other words you tend to put the needs of others first. You are inspired to help humanity rather than serve your own individual needs.

A weakness, if there is one, lies in the tendency toward insincerity. You readily fall into the habit of weaving imaginative stories. Sometimes you feel it is easier to relate a fantasy rather than to tell the straight truth. Your Angels will steer you in the direction of the truth, and you are well advised to respond to their gentle nudges before you get into deep trouble.

Another possible weakness is susceptibility to temptation. If you don't think about what you are doing, you can easily be led into deceptive or negative situations. Here is one place where reliance on your Angels pays off. First, they surround you with protection. As you cultivate their energies, you find that other people control you less and less. You develop your own sense of what you want, built on your own values.

Because you are so open to others, you have a certain disregard for boundaries or limits. For example, race, sex, and social station pose no obstacle when you develop friendships. You are sympathetic to others naturally, and you reach out to them without a second thought. Occasionally you find that other people have rigid boundaries, and they are offended or scared when you get too close. Luckily, backing off is quick and simple.

You personally are alluring, able to communicate socially with charm. Your powers of magnetic attraction, while perhaps not legendary, are certainly evident. You may find, if you are in the situation, that you can speak to a large audience with fluency and grace. You may also use artistry to communicate your message to humanity.

Artists Michelangelo and M. C. Escher had Neptune in the Eleventh House.

Angels in Your Daily Life

The Ascendant

The Ascendant in your chart is the sign rising in the East at the time of your birth. As such it also reflects the way your personality rises new and refreshed to greet each day. The Angel of the Ascendant also rises each day to assist you in renewing your personality and your personal resolve.

The Ascendant is in Sagittarius

With the Ascendant in Sagittarius, you gain strength from the Angel Adnacheil who empowers with love. The quality that shines forth freely in your personality is enthusiasm. Except for isolated times in your life, you generally relish the possibility of expanding your intellectual horizons and covering a lot of territory in your travels.

You value knowledge, adventure, and truth above material wealth, yet you can create or accumulate beautiful things. You can usually make your money go farther than the average person, perhaps because you buy for quality and expect things to last.

You probably enjoy a variety of sports, either as a participant or spectator. Optimism and honesty combine to make you a welcome team member at work or at play.

Disappointments hit you very hard. While you are capable of changing your mind, you don't do so easily. Thus you need a long time to nurse wounds from faithless associates, and in the interim you may seem rather self-righteous.

You chide yourself severely if you ever promise more than you can deliver. In this you uphold your beliefs in that you don't expect something from other people that you cannot deliver yourself. Your Angels help you to be more generous with yourself, and with others.

Meditation on the Fire Element

In the Book of Daniel (3:28), we learn that the Angel of the Lord was in the furnace with Shadrach, Meshach, and Abed-nego when Nebuchadnezzar punished them after they refused to sacrifice to the pagan deity. After the Angel saved them, Nebuchadnezzar was visited with dreams and visions concerning the future.

The Angel of Fire also rules over hidden things. This Angel delivers information in the form of intuition. You can enter into the fire in your meditation to gain knowledge that can later be tested by asking questions and

gathering factual information. To do this, place a candle on your alter or on a table in front of you so you can look at the flame without straining your eyes. The flickering flame provides physical movement and encourages mental, emotional, and spiritual movement to match. When all else is still, the movement of the flame allows for movement within your mind. In the caps between ordinary thoughts, intuition arises.

The Midheaven

The Midheaven in your chart is associated with an Angel who helps you understand yourself, and who is activated at specific times to bring the necessary understanding at moments of great transition or transformation.

The Midheaven is in Libra

Libra Midheaven -- Suriel

With the Midheaven in Libra, you establish yourself in the world with the aid of the Angel Suriel who alleviates destructive desires. Being a logical person, you know that you have no good reason to act in an unpleasant manner. At the same time, you may not have any good reason for total sincerity either. After all, complete sincerity will surely lead to unpleasantness, at least part of the time. Thus you adopt a strategic balance between these two important qualities.

You have a similar mind set when it comes to cooperation and exploitation. You are willing to cooperate, at least when it suits your purpose. You are also willing to exploit the benefits that the Universe puts in your path. The resulting behavior incorporates as much cooperation as it takes to get what you want. When your method fails, you can become indecisive, impatient, and unwilling to support your team members. This is when you benefit from Angelic presence.

How do you personally perceive signs that your prayers have been answered, or that your Angels have heard you? When you feel yourself coming into equilibrium, you know you are on the right track. You may find that Angels and Angelic images work themselves into your work in some way.

You are not comfortable in extreme conditions and you pull back from them, knowing that you can restore secure footing and continue on a more congenial path. You can use meditation to help you find and maintain your balance point.

Another key to Angelic presence is your ability to reach out to others without losing your own position. You find that as your Angels guide you, you respond easily and freely to a variety of situations. You draw on information from many sources to help solve problems, and you can integrate massive amounts of information very quickly. You learn to recognize your path for its qualities of equanimity and integrity. The combination of the Libra Midheaven and the Angelic energies of Suriel is indicative of a career in the arts, or in leadership positions like the military where coordination of material and personnel is essential to success.

Meditation for The Midheaven

1. Sit or kneel in a comfortable posture, back erect.
2. Begin by breathing in and out, settling into your posture and gazing slightly downward.
3. As you breathe, allow awareness of equilibrium to fill your mind.
4. Develop a rich, vibrant feeling of what balance looks like, feels like, and sounds like. Consider all your senses as you build awareness.
5. As you do this meditation, notice how your attitude toward equilibrium may shift or become even more defined.

6. Do this meditation for a few minutes.

7. When you are finished, write about your impressions for future reference.

The Midheaven is in the 3rd Decanate in Libra

At times you become arrogant in your assumption that you understand the big picture better than other people. Your Angels help you by showing you calm clarity that results from the alignment of intellect and emotions. As a result you can paint the big picture for others with compassion rather than overbearance.

Neptune is the Ruler of the 3rd House

As you cultivate your personal Angels, you discover that you value versatility in your life. You love to go anywhere, do anything, and think whatever you feel like thinking. This trait has become a medium for exchanging thoughts and feelings with the widest possible range of people, and it allows you to learn about new subjects with ease, as well as helping others with our experience. Your manners are generally impeccable.

The problem, if there is one, is that you become bored. You may invest so heavily in finding new experiences that you fail to appropriately cultivate the relationships you already have. You may appear superficial when your efforts only skim the surface and fail to dig deeper for more profound meaning. Your Angels come to your aid with little nudges to guide your thought to the next level of complexity. Once you discover that such levels exist, you open up every experience you ever had to closer scrutiny, and you enrich your life in manifold ways.

Pisces is a water sign. Your meditation can be aided by placing one or more containers of water around you. Often you can relax your mind while bathing, as the movement of water helps to create movement of ideas in your body and mind. The watery movement, combined with chanting, reading, or simply thinking about a mantra, can help you to calm your thoughts and view things in a different light. You may see through apparent reality to a subtler level of truth in this way.

The Sun

The Sun is the center of our solar system, and symbolizes the spiritual center of your being. It reflects your individuality as you express it in this lifetime, and it also expresses your spiritual potential for this lifetime. The Angel closely associated with your Sun sign can help you to be the best, happiest person possible.

The Sun is in Pisces

With the Sun in Pisces, you gain strength from the Angel Barakiel. One of your challenges is to discern the difference between belief and knowledge. The two fishes of your sign reflect the duality of human experience, as one represents the personality and the other represents the soul. The two are tied together, and you learn about each through the other.

Barakiel helps you to understand your instincts while also elevating your mind through intuitive awareness. You have intense awareness of the people around you, and you can serve as a link or mediator because you understand all sides of a situation, and you can sympathize with them all.

Metatron, thought to be the most powerful of the Angels, is readily available to aid your development. You progress from instinctual living to intellectual strength, and from selfishness to selflessness. Negative emotions are gradually converted to sympathy and compassion for whomever you meet.

Interacting With Angels

While you are going about your daily activities, the Angels around you are interacting according to your unique personality, desires, and needs. Imagine that you are on stage, acting out your role in life. Behind the scenes your personal Angels are arranging what you need, discussing how you feel, and possibly even debating the best way to help you. You don't have to worry about their actions because they continue to act in your best interests even when you are unaware. The following aspects indicate how your personal Angels work for you throughout your life. If you have no aspects to Neptune, that circumstance is also discussed. As you work with your Angels, you will become more and more aware of these themes and what they mean for you.

Uranus is Conjunct Neptune

With Uranus Conjunct Neptune, you experience a profound interaction between Zadkiel and Tamiel. Zadkiel is the Angel of Death, and Tamiel of Dreams. Together they extend your understanding of the nature of life and its limits. They also reveal the many ways you can change your life through skillful action.

You have a natural love of ritual. You find, when you think about it, that ritual pervades everything you do. You get along with other people very well because you observe the steps of ritual, entering into each conversation, activity, or association according to socially or culturally defined rules, and in so doing you put other people at ease without undue fuss or bother.

You can develop subconscious talents through conscious expression. In concert with your Angels, you express little pieces of your subconscious awareness in conversation or action. As you do this, you affirm your less conscious abilities and honor them and your Angels. Then your mind is better able to provide ideas and feelings to aid your work.

Inspired idealism may not be what you think you have been looking for, but you are certain to find it eventually. Your Angels send you dreams and ideas all the time, and you have only to pay attention to them. Your idealism provides a foundation for you to help others who experience major disasters or transformations in their lives. When you or others experience loss, your Angels are ready and willing to lift you up.

A potential weakness is the lack of stamina. Physical exercise to build lung capacity and muscle strength is well worth the effort. The physical strength you gain provides a foundation for emotional and spiritual strength.

For mental strength, meditation or yoga provide an organized practice. Kundalini yoga provides a medium

for mental focus as well as physical exercise, building all the structures you need to support your developing psychic awareness.

Another possible weakness of structure could lead to high blood pressure and its associated ailments. The above mentioned exercise, meditation, and yoga all serve to reduce blood pressure and strengthen the system so as to avoid dangers of stroke and heart ailments.

Heightened psychic states including clairvoyance are the norm for this combination.

The Sun is Trine Neptune

With Sun Trine Neptune, you experience a gentle, soothing confluence between Raphael and Tamiel. When the Angel of Healing and the Angel of Primordial Energy meet, you experience the profound nature of healing in your life. You have probably always experienced a degree of physical protection, and now you cultivate that sense of calm and security in your meditations.

Frail physical health may seem to overshadow your life, particularly in childhood. As you gain emotional and spiritual strength, you find that your physical health also improves, and at the very least your attitude about your physical health becomes more creative.

Profound psychic sensitivity is a natural outcome of communion between Raphael and Tamiel. As you immerse yourself in their messages, you find that psychic awareness becomes keener, and you decipher the messages more easily.

Active imagination is another blessing from this team of Angels. You find that your dreams take on clarity as you meditate on them. Even nightmares take on the cloak of creative possibility as you convert the once terrifying content into creative action.

Enthusiasm becomes your watchword! You engage in all your activities with greater vigor and optimism, and your attitude is contagious. All your family and friends bask in the glow of your cheerful persona.

Idealistic thoughts become the impulse for dynamic action. You find that you are able to anticipate the likely results of your actions, and you then gear your efforts accordingly.

Expect your interest in mysticism to increase. Raphael and Tamiel open your heart to divine possibilities, and guide your personal efforts into the channels of integrity.

Mars is Trine Neptune

With Mars Trine Neptune, you experience the energy of desire through the Angels Samael and Tamiel. Samael is the Angel of Temptation. The gift in this Angelic energy is the power to market yourself and your ideas to others. Tamiel is the Angel of Dreams. Here you find the words and images, the touch and smell that entice others to buy or not buy into your schemes.

Spirituality provides a regulator for your feelings and passions. While you definitely want to be successful, the aim is to do so without causing harm to anyone else. Therefore your Angels help you to be persuasive only after finding out what the other person wants or needs.

Sometimes you feel the urge to express yourself in a particular artistic medium. Although you may not sustain this interest long enough to develop expertise, your artistic efforts are deeply satisfying to you and they may grace your home or office, or the homes of family members. If you continue to produce works of art, you may gain a following.

A weakness is the tendency to consider harming others. You may have destructive thoughts, but you never need to act on them. Your Angels help you to channel your energies toward compassion instead of harm.

Another weakness is susceptibility to drugs and alcohol. Here again your meditations with the Angels help you to avoid unnecessary drug use, and to moderate use when drugs are prescribed.

A great strength is your inspired ability to plan grand ventures and then to see them through to completion. Any feelings of inferiority dissipate when you are fully engaged in a project. You magnetically attract just the right people to help you get things under way and approach your goals with few side trips or distractions.

The extent of your compassion is unlimited. As you deepen your awareness of Angelic presence, compassion flows from you to all living things, including the planet itself.

Saturn is Trine Neptune

With Saturn Trine Neptune, you experience a gentle yet serious confluence between Kafziel and Tamiel. Kafziel is the Angel of memory, solitude, and tears. Together these Angels put you on the path of personal integrity as surely as you follow one thought with another.

Your slow growth of understanding could be seen as a weakness. However, your path is one of steady, almost certain forward progress. You analyze and consider each decision and each new idea. In this way every step is firm and solid, not tentative or half-hearted.

Intelligent activity becomes part of your nature. Intelligent activity involves the skillful use and application of knowledge, so you must first gain knowledge before you can apply it effectively. Kafziel and Tamiel work in concert in your life by first supplying the means to learn, and then aiding your mind through dreams or visualizations of how to use the information you have gained.

As you allow your Angels into your life, you gain the capacity to maintain hope in the face of seeming disaster. You discover that even in the most difficult circumstances, you have Angelic protection, and you can find a way to work your way out of the problem.

These Angels help you learn how to manage pain. When you or someone else experience severe physical or emotional pain, your Angels provide the means for relieving its severity, as well as providing the path to resolving it altogether.

Zadkiel and Tamiel provide dreams to help you through life's difficulties. You have tenacity of spirit, and your Angels support its use. Sometimes you will have a conscious idea, and you work step by step to make that dream a reality. Other times dreams provide very direct messages about your life. Either way, your mental strength is a special ally throughout your life.

Mercury is Square Neptune

With Mercury Square Neptune, you experience a dynamic, challenging interaction between Michael and Tamiel. When the energies of the Angel of Warrior Spirit and the Angel of Primordial Energies meet, you can expect lots of action! On the one hand, you have the full power of the confessor, and on the other you have the power of punishment. Sounds grim! However, these two Angels are all about showing you the path of personal integrity. They don't just suggest it, they reveal the path of integrity in pictures, words, feelings, and spiritual inspiration.

Naturally, you have a fabulous imagination. You perceive the past, present, and future as a seamless, integrated whole. You can write powerful drama, fiction, or poetry. Your capacity for artistic expression in music, painting, or sculpting can develop if that is where your interests lie. In focusing on Michael and Tamiel, you find you can imbue all your activities with sparkle and glamour that act like magnets for the imaginations of the people around you.

You are a skilled communicator, particularly in relation to feelings and spiritual matters. You can counsel

others through peer counseling, training in psychology or psychiatry, religious vocation, or spiritual channels. Your intuitive capacity grows as you focus on the Angelic energies available to you.

You sometimes experience poor judgment when you don't think things through carefully. This is an area where meditation allows you direct access to the support of your Angels. Yoga is another good way to coordinate mind and body so that your thoughts are clear and powerful.

As you work with Angelic presence, you find that any former tendency toward wrong thinking is replaced by thoughts of compassion. No longer ruminating on supposed wrongs from others, you find yourself experiencing the spiritual power within them. Then you choose the right words to encourage them to express that power more clearly.

Pluto is Sextile Neptune

With Pluto Sextile Neptune, your life is enriched with opportunities presented by the Angels Metatron and Tamiel. Metatron has been called the King of Angels and the Chief of the Ministering Angels. This Angel is thought to be the pillar of fire the Jews followed in their exodus from Egypt. He is a certain link between you and the divine. Metatron's association with Tamiel, the Angel of Primordial Energies, is extremely powerful.

You undoubtedly experience supernatural events and conditions during your life. Your Angels provide this resource and can help you refine it. Psychic impressions and intuition become second nature to you after a while. You learn to act on intuition in much the same way you would act on advice from your accountant.

One facet of the path of personal integrity for you involves purification of your soul. This means elevating your thoughts above petty jealousy and anger. While you may never overcome negative thinking entirely, working with your Angels will lift you up, step by step, to thoughts of compassion and love. Love overcomes fear and compassion overcomes hatred.

One possible expression of this aspect of your birth chart is that you have at least one extrasensory ability. At first you may experience some confusion in interpreting psychic and intuitive information as it comes to you. You are likely to overcome this confusion once you develop the necessary comprehension of your abilities and thus develop your psychic skills. Meditation each day allows your Angels to contact you more directly to help in this area.

You have the power of a storyteller combined with the wisdom of a seer. You could write fiction or dramatic scripts, and your poetry can become the liquid fire of inspiration and soothing balm for the soul.

Venus is Quincunx Neptune

With Venus Quincunx Neptune, adjustments in your life are mediated by the Angels Aniel and Tamiel. Aniel is the Angel Guardian of sexuality, and Tamiel governs your unconscious energies and your dreams. Together they form a powerful channel for all creative energy, and sexuality is one of the most potent of these.

You probably have experienced the longing for love. You wish to experience love from family, friends, and romantic partners. Aniel and Tamiel team up to provide all sorts of fantasies in this department, and they also help you to manifest some of those fantasies in truly moving and supportive relationships.

You have a potent erotic imagination. When you think about sex, you are able to supply all the fine lines and broad brushstrokes, all the intonations of voice, and all the physical sensations of passion. Your erotic dreams may take on epic proportions.

You have a well-defined interest in mysticism, even if you don't recognize it at first. You are drawn toward exotic clothing and foods, unusual expressions of faith and love, and even to dark vampire-like expressions of passion and possession. Remember, the light, bright side of love is balanced by darker energies, and to

experience the light, you must at least be aware of the darer side of your fantasies.

High ideals, though, can lead you to the spiritual heights of sexuality. You are naturally receptive. Aniel and Tamiel support you in discovering a safe, secure partnership in which you can surrender to passion!

One potential weakness is your susceptibility to influence from others. Infatuation can end in rather crushing disappointment when you find that your expectations are either impossible, or that your partner simply can't meet them. Aniel and Tamiel, in these moments, carry you through your sorrow toward another opportunity for great love.

Jupiter is Quintile Neptune

With Jupiter Quintile Neptune, your creative talents blossom when you attend to the messages of Zadkiel and Tamiel. When the Angel of Mercy and the Angel of Primordial Energy meet, you understand the depth of happiness that you can experience. You have had glimpses of this happiness in the past, and perhaps even extended periods when you felt blissful. Now you have a tool to make the interaction between these Angels a part of your daily life.

Through your meditation, you can cultivate a sincere love of humanity. Your Angels guide your thoughts toward compassion and integrate your feelings with the knowledge that you need to express compassion effectively in everyday life.

Naturally idealistic, now you can focus on your idealism and make some of those goals become reality for you and for others. As you listen to your Angels, you find that ideas come to you easily and naturally. Even when you don't know the mechanics for a particular action, you sense the right activity and then either learn how to do it, or find people who know.

You are impressionable. This can be seen as a weakness until you learn to manage the impressions you receive. Initially, when you have no filtering system, you receive impressions from everyone and everything. Part of developing the mind in childhood relates to developing structures and organization for feelings and sensations. Even as an adult, you continue to define and refine your mental structures. Eventually you realize that impressions from other people translate almost instantly into meaning for you.

Another possible weakness is a general lack of muscle tone. It's important for you to find an exercise program that works for you. It can be as simple as a walk every day, or as complex as a serious weight or strength training program. The idea is to aim for some exercise each day, and some activity that builds and maintains muscle strength.

Expand your interest in mysticism through study of one or more subject. Pursue connections between your religious beliefs and your mystical thoughts. Your Angels will fill in the blanks in what you read or study. Meditation allows your mind to sort through what you have taken in. Meditation also allows your Angels to speak directly to you and provide additional insights.

Wisdom comes to you through the association of Zadkiel and Tamiel. Your dreams provide a ready source of inspiration because they put the energies of your Angels into pictorial, auditory, and sensory form.

Chiron is Square Neptune

Because there are hosts of Angels directly involved with healing, assigning one Angel to Chiron is no simple task. In fact, the influence of Chiron in healing is similar to that of the Angelic hosts. This planet is a catalyst for healing energies within you, much as the Angelic hosts provide an atmosphere of healing within which you can work. However, the energy of Sariel resonates strongly with Chiron.

With Chiron square Neptune, you experience healing in a more stressful way than most people. Your nervousness and confusion, when converted to active channeling of healing energy, reflect the powerful

communion between Sariel and Tamiel. When an Angel of healing meets the Angel of primordial energy, the potential for positive change is ignited within you. Your capacity to cleanse your body and mind of all impediments to health is greatly strengthened by this powerful duo.

Your capacity to heal reflects the partnership you can develop with your Angels. Two factors are important to note:

There is duality in everything. Any illness, discomfort, or mental aberration reflects one side of a polarity. On the other side you can find health, sanity, and satisfaction. Love casts out fear, for example. Pain can instill compassion. Emotional healing occurs when you go through suffering instead of denying it. Angelic greetings traditionally have included the words, 'Fear not,' because the removal of fear from your consciousness creates suitable conditions for healing.

Physiology mirrors consciousness. As you learn the subtle connections between your belief, thoughts, and feelings and the physical body, you begin to see how positive, optimistic, creative thoughts produce healthy feelings, while negative, destructive, pessimistic thoughts create feelings of illness. You retain your free will, but your Angels create a condition in which you can more readily choose the enlightened path toward greater wellness.

Meditation is essential for you to reduce your own physical and emotional stress levels. As you accomplish this task, you gain a sense of space in which your healing can occur easily. Your Angels provide a bridge from your current state to one of greater intuitive understanding of wellness in your life.

Neptune is Semisextile The Midheaven

With Neptune forming a semisextile to your Midheaven, your natural psychic ability presents moments when imagination is poignant and bittersweet. You experience the value and importance of psychic information directly and sometimes so pointedly that it is painful. You may have moments of self-doubt that test your core beliefs and yet stimulate creative change.

When the world showers you with glamour and other people try to convince you of realities that don't mesh with your own perceptions, your Angels can help you to express compassion for others, while understanding your own motivations.

On the plus side, Tamiel supports your receptivity, empathy and sensitivity. Awareness of Mind is enhanced through angelic associations, and your contemplative nature expands as you explore your own ego. This may sound odd, as many spiritual belief systems indicate that ego is to be avoided or quelled. However, if you go through ego issues instead of around them, you are better able to resolve them.

Tamiel also supports you by revealing your greatest mental and emotional weaknesses, so that you may resolve them. For example, you may be susceptible to deception, either from others or through yourself. Your Angels help you to perceive deception and to dispel it.

You have a powerful imagination that can be utilized in the search for self-awareness and spiritual consciousness, and your Angels are there to help you.

Neptune is Semisextile The Ascendant

With Neptune forming a semisextile to your Ascendant, you naturally benefit from Tamiel and your other Angels, although you may experience both - the rose and its thorns - in the process. You are provided with opportunities throughout your life to build a working relationship with angelic presence and awareness. You are susceptible to influence from the environment and other people, and you benefit from meditation and affirmations that your Angels are always with you. As you practice contacting your Angels, you find that you can identify and choose the most promising opportunities quickly and easily, and thus benefit from them more fully.

You have a natural capacity to channel or to use other psychic skills. If you open yourself to any and all energies, you may feel drained or even assaulted by negativity. Instead, you can enlist the help of your Angels to develop suitable 'shields,' so that positive influences come into your sphere easily, while destructive energies are rebuffed before they can affect your emotions or physical body.

Your imagination can be used for storytelling, music, or creative arts of all kinds. Your talent flows from a deep well of spiritual energy, and your Angels aid you by keeping the flow steady and constant. Even when you cannot come up with a good idea, your Angels are at work building the next idea for you.

Your devotion to other people is noteworthy. As you develop your own protection, you find that you can extend yourself to others by choice, and you discover your energy is virtually limitless.
